

# Wish List

The Wildlife In Need Center is an organization of trained volunteers and staff dedicated to rehabilitating sick, injured and orphaned Wisconsin wildlife and wildlife education.

These animals are then returned to their natural habitats.

Only donations by caring people have provided for the needs of these wild animals as we receive no county, state, or federal funding. There are always many needs unmet because of limited funds.

## Cleaning Supplies

Simple Green or Green Works cleaner  
(the gallon-sized concentrate is best if possible)  
Paper Towels
