

# Wish List

The Wildlife In Need Center is an organization of trained volunteers and staff dedicated to wildlife education and rehabilitating sick, injured and orphaned native Wisconsin wildlife.

These animals are then returned to their natural habitats.

Only donations by caring people have provided for the needs of these wild animals as we receive no county, state, or federal funding. There are always many needs unmet because of limited funds.

## Cleaning Supplies

Simple Green or Green Works cleaner  
Paper Towels  
Bleach  
Liquid Laundry Soap (no powder)
