The Wildlife In Need Center is a nonprofit organization and does not receive federal, state or county funding. Due to our small staff, volunteers and members are vital to our success and instrumental to the well-being of the animals we treat.

It is the mission of the Wildlife In Need Center to provide wildlife rehabilitation to Wisconsin wildlife with the intent to release back to their native habitat, conduct research designed to further the positive impact of rehabilitation, and provide quality community education programs and services.

Please note that State and Federal regulations prohibit us from letting you take your animal home with you, but with your support we will provide the best care possible in your honor, we promise!
